

PROBLEACH CMB Conc

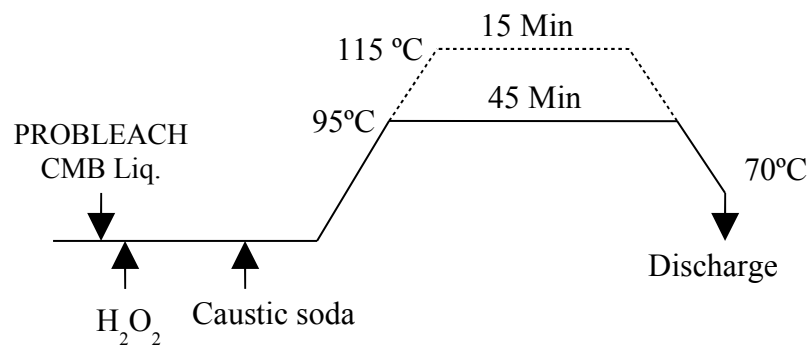

PROBLEACH CMB Conc is a specially developed product in concentrated form for the most optimized single bath pretreatment of cotton, viscose rayon fabrics and its blends providing remarkable whiteness, hydrophilicity and very high oil removing property opposite to other bleaching agents. It also offers a great advantage of not foaming. **PROBLEACH CMB Conc** is concentrated form and can be diluted as 1:1-1:1,5 by water.

CHARACTERISTICS:

Composition : Synergic combination of fatty acid esters and organic compounds.
Appearance : Slightly yellowish viscose liquid
pH : $7,0 \pm 1,0$
Ionic Char. : Anionic-Nonionic
Solubility : Dissolves in every percentage with water

USING CONDITIONS and APPLICATIONS

Recommended usage amount of diluted **PROBLEACH CMB Conc**, though depending on the fabric type and weight, is in general 1,2 – 1,5 gr /lt.

Recommended Dilution Process

Dilution Ratio: 1(**PROBLEACH CMB Conc**):1(water) –
1(**PROBLEACH CMB Conc**):1,5(water)

1. Charge the water to mixing tank
2. Start the mixer
3. Add the **PROBLEACH CMB Conc** at 10 minutes
4. Proceed the mixing plus 10 minutes
5. Stop the mixer
6. Final product is ready to use

STORAGE CONDITIONS

Keep out of direct sunlight or freezing. It is stable for at least 6 months if stored in original packing and recommended storage conditions.
