

## PROKILL 10 L

**PROKILL 10 L** is concentrated high activity catalase enzyme. As a main advantage, it is only effective  $H_2O_2$ , converting the hydrogen  $H_2O_2$  in the bath into water and oxygen.

### CHARACTERISTICS

Composition	: Concentrated catalase enzyme
Appearance	: Brown, transparent liquid
pH (25 °C)	: $5,0 \pm 0,3$
Ionic char.	: Anionic
Solubility	: Dissolves in water at any concentration.

### USING CONDITIONS and APPLICATIONS

- **PROKILL 10 L** reduces preparation of dyeing time and provides time and energy savings.
- **PROKILL 10 L** is only effect to against hydrogen  $H_2O_2$ .
- It prevents any color differences which may occur due to  $H_2O_2$ .
- **PROKILL 10 L** is an ecological product.

Recommended usage account from **PROKILL 10 L**

Usage	0,2 gr/l
pH:	5.0 – 6,0
Time	10 – 20 min.
Temperature	40 –50 °C

While adding **PROKILL 10 L** into the bath, a special care has to be taken for the fabric temperature to be under 50°C.

Dyeing in the same bath can be performed following the complete elimination of the  $H_2O_2$ .

### STORAGE CONDITIONS

Keep out of direct sunlight or freezing. It is stable for at least 6 months if stored in original packing and recommended storage conditions.
