

PROSOFT SE 110

PROSOFT SE 110 is a specifically developed product with high affinity to all types of fibers and fabrics. The handle of the fabric enhances to a silky and extra soft touch. The unique chemistry of **PROSOFT SE 110** allows the use not just in padding but also in exhaustion. Thanks to its high active content it has very delicate handle even if it has been used with low concentrations.

CHARACTERISTICS

Composition : Special cationic long chain oil esters
Appearance : Off white viscous liquid
pH : $4,5 \pm 1,0$
Ionic Char. : Weak cationic
Solubility : It can be diluted even with cold water in any ratio

USING CONDITIONS and APPLICATIONS:

PROSOFT SE 110 with its extra low yellowing characteristic can be utilized in every finishing aspect on each different composition of fibers as well as regardless of fiber type. One of the compromising advantages of **PROSOFT SE 110** is the fact it doesn't have any negative effect on hydrophilicity of the fabric.

Recommended usage may differ according to requested handle, composition of fabric etc but usually the concentrations given below will be sufficient to reach requested result.

	Exhaustion	Padding
Usage:	2-3 %	10 – 20 gr/ltr
pH:	$5,5 \pm 0,2$	$5,5 \pm 0,2$
Wet pick up: (WPU)	-----	70 – 80 %
Temperature	40-50° C	-----

STORAGE CONDITIONS:

Keep out of direct sunlight or freezing. It is stable for at least 6 months if stored in original packing and recommended storage conditions.
