

PROLUBE ACA

PROLUBE ACA is a special anti-crease agent preventing fabric wrinkles and rubbing traces due to its specific composition.

CHARACTERISTICS

Content	: Combination of phosphate esters
Appearance	: Light brown, easy-flowing liquid
pH	: $8,0 \pm 1,0$
Ionic char	: Anionic
Solubility	: Dissolves in water at any concentration.

USING CONDITIONS and APPLICATIONS

PROLUBE ACA 's benefits are provided as follows:

- Suitable for use in overflow and jet dyeing machines, best results are obtained with lycra and blends.
- Suitable for use in boiling washing baths.
- Stable in pre-treatment and dyeing baths.
- Enables dyeing of cotton/synthetic blends in single bath without oil stains due to its very good emulsifying capability.
- Recommended concentration is 0,50 – 2,50 g/l

STORAGE CONDITIONS

Keep out of direct sunlight or freezing. It is stable for at least 6 months if stored in original packing and recommended storage conditions.
